Libraio della R. Accademia delle Scienze

1897

Estr. dagli *Atti della R. Accademia delle Scienze di Torino*, Vol. XXXII.  
Adunanza del 10 Gennaio 1897.

Torino — Stabilimento Tipografico VINCENZO BONA.

Nelle tavole che seguono sono raccolti i risultati delle principali Osservazioni Meteorologiche fatte all'Osservatorio della R. Università di Torino nell'anno 1896.

Le notazioni e i simboli adoperati sono quelli generalmente in uso: la forza del vento è espressa nella scala 0 — 4; e la nebulosità del cielo nella scala 0 — 10.

Le meteore sono indicate coi simboli internazionali proposti dal Congresso di Vienna ed ora comunemente adottati:

Pioggia . . . . .	●	Temporale . . . . .	⚡
Neve . . . . .	*	Temporale lontano . . . .	⚡
Nevischio . . . . .	△	Lampi senza tuoni . . . .	<
Grandine . . . . .	▲	Lampi e tuoni . . . . .	Σ
Nebbia . . . . .	≡	Vento forte . . . . .	—
Nebbia all'orizzonte . . .	≡	Vento fortissimo . . . . .	—
Brina . . . . .	∨	Uragano di neve . . . . .	+
Gelo . . . . .	└	Alone solare . . . . .	⊙
Gelicidio . . . . .	∞	Alone lunare . . . . .	☾
Rugiada . . . . .	∩	Corona solare . . . . .	⊕
Aghi di ghiaccio . . . .	∞	Corona lunare . . . . .	☾
Caligine . . . . .	∞	Arco baleno . . . . .	⌒

Gli esponenti <sup>0</sup> e <sup>2</sup> indicano rispettivamente che la meteora alla quale si riferiscono è di poca intensità, oppure fortissima; e la lettera *n* e i numeri *I*, *II*, *III* significano che la meteora è stata osservata nella notte oppure verso le 9, le 15 o le 21.

Le ore sono contate da una mezzanotte all'altra in tempo medio dell'Europa Centrale.

I valori medi giornalieri sono ottenuti prendendo la media dei valori osservati alle 9, alle 15 e alle 21; fuorchè per la temperatura, la media della quale è ottenuta prendendo la media dei valori estremi e delle temperature osservate alle 9 e alle 21.

Nell'ultima tavola sono confrontati coi valori normali i risultati ottenuti in quest'anno già corretti per ottenere le medie giornaliere delle osservazioni fatte nel tempo medio dell'Europa Centrale (Cf. *Osservazioni Meteorologiche 1894*, nota).
